

## BIOGRAPHY

I'm an experienced Creative frontend developer with 6 years digital industry experience, building a range of websites from small to large-scale, as well as web-applications based on web standard technologies. I have delivered engaging and visually compelling web builds on a variety of Frontend frameworks with user-friendly UI that are mobile first, cross-browser compatible and follow best practice allowing for seamless additional future development.

As a frontend developer in an ever changing industry I pride myself on being able to communicate clearly within a team, contributing and collaborating is essential. I'm enthusiastic, hard-working and always willing to learn and take my skills to the next level.

## EXPERIENCE

### FRONTEND DEVELOPER

Superunion | 1 year | Oct 17 - Oct 18

Worked on large worldwide known brands such as Legal & General, Tesco and WPP. Both as part of a team and as a sole developer. It was important to work closely with the design team to make sure all development was in line with their vision both technically and creatively across all required browsers and devices. During my time here I worked with developers both in house and internationally. Communicating clearly what needed to be achieved.

### FRONTEND DEVELOPER

Greenwood Campbell | 3.5 Years | Jul 14 - Oct 17

Developed over 20 responsive, mobile-first, cross-browser semantic websites, I Introduced new design systems to help streamline productivity, communication and collaboration within the creative process. Mentored junior developers allowing them to work alongside me and others to deliver web projects effectively.

### JUNIOR FRONTEND DEVELOPER

Greenwood Campbell | 1 Year | Jun 13 -14

Provided telephone and email support to clients. Making me responsible for debugging and repairing coding issues found on existing websites. This was a great learning experience and allowed me to adapt to an array of different issues.

## EDUCATION

### DIGITAL MEDIA DESIGN BA(HONS)

Bournemouth University | 2010 - 2013

I graduated in 2013 with a 2:1 where I was taught a broad variety of different coding languages and techniques. Over my 3 years I had to demonstrate the capacity to navigate a complex evolving media landscape that both challenged and informed peoples understanding of digital media.
